SCOPE AND PRIORITY CARD

CHAPTER 9 A1S2 SCOPE = SLIDES 1-51 ONLY

IN SCOPE

- hypothesis foundations; H_0/H_1
- test statistic and critical values
- Type I/II, α, β, basic power
- tail/rejection-region recognition
- mean test, σ known → Z
- critical-value and p-value methods
- Excel Z workflow
- two-tail Z test ↔ CI
- mean test, σ unknown → Student t
- df=n-1 and normality checks
- two-tail t critical/p-value routes and CI

EXCLUDED AFTER SLIDE 51

- detailed One-Tail Hypothesis Tests section
- detailed later one-tail mean-test procedures
- hypothesis tests for proportions
- later planning-stage material
- statistical versus practical significance
- later ethics/reporting section
- detailed power-of-test calculations
- later power worked examples

Tail recognition remains in scope because rejection-region concepts occur before slide 51.

C8.69-C8.75 AUDITING / POPULATION-TOTAL: HOLD - A1 SCOPE UNCONFIRMED. Excluded from this current core study pack unless the lecturer explicitly activates them.

FRIDAY 28 AUGUST

- Chapter 8 AF - due 17:30
- A1S2 Practice Test - closes 23:59

DIAGNOSTIC REVISION

- Chapter 6 Revision AF - unlimited / ungraded
- Chapter 7 Revision AF - unlimited / ungraded

SATURDAY 29 AUGUST

- SDS188 A1S2
- Chapters 6-9

PRIORITY ORDER

1. Prepare Chapter 8 → complete Ch8 AF independently
2. Master Chapter 9 slides 1-51
3. Complete official practice test
4. Repair Excel/method-selection errors revealed by practice
5. Chapter 6 Revision AF cold diagnostic → repair
6. Chapter 7 Revision AF cold diagnostic → repair
7. Scoped Ch6-9 mixed practice
8. Final formula/Excel recall

LIVE-AF RULE: This pack is for pre-assessment study. Complete the live Chapter 8 AF independently under the posted AF rules.
